2. Compatible Inverters

FR Configurator SW3 is compatible with the FR-A700, FR-A701, FR-D700, FR-E700(SC)(NC) and FR-F700 series.

3. Installation/Uninstallation

Log in as a user with administrator permission, and start the installation. Install this software in accordance with the following procedure. In an operation system with antivirus / security software, a warning may appear when installing FR Configurator. If a warning appears, verify the installation of FR Configurator according to the setting procedure of your antivirus/ security software.

(1) Installation procedure

* When installing to Windows Vista and Windows 7, "AutoPlay" window may appear. Select [Run setup.exe] to continue the installation.

For detailed installation procedure, refer to a software manual on this CD-ROM. Refer to page 2/4 for the manual of this software.

If a window on right is displayed during the

installation, click <u>Continue Anyway</u> to continue the installation.

(When installing this software to Microsoft[®] Windows Vista[®] or Microsoft[®] Windows[®] 7, a different window appears. Refer to the instruction manual of this software before the installation.)

(2) Uninstallation procedure

Open the [Start] menu of Windows, and then click [Control panel]. Click "Add or Remove Programs" in the "Control panel" window.

When "Add or Remove Programs" window is

displayed, select the deleting software and click Remove to start uninstallation.

FR-SW3-SETUP-WE CC-Link Seamless is also uninstalled when uninstalling FR-SW3-SETUP-WE.

The software you are installing has not passed Windows Logo testing to verify its compatibility with Windows XP. [[e] me why this testing is important.]

Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Nicrosoft strongly recommends that you stop this installation now and contact the software vendor for software that has passed Windows Logo testing.
