

MITSUBISHI

GT15 Sound Output Unit

User's Manual

GT15-SOUT

Thank you for purchasing the GOT1000 Series.

Prior to use, please read both this manual and detailed manual thoroughly to fully understand the product.

MODEL	GT15-SOUT-U
MODEL CODE	1D7M68
IB(NA)-0800383-F(1106)MEE	

GRAPHIC OPERATION TERMINAL
GOT1000

SAFETY PRECAUTIONS

(Always read these precautions before using this equipment.)

Before using this product, please read this manual and the relevant manuals introduced in this manual carefully and pay full attention to safety to handle the product correctly.

The precautions given in this manual are concerned with this product.

In this manual, the safety precautions are ranked as "DANGER" and "CAUTION".

DANGER Indicates that incorrect handling may cause hazardous conditions, resulting in death or severe injury.

CAUTION Indicates that incorrect handling may cause hazardous conditions, resulting in medium or slight personal injury or physical damage.

Note that the CAUTION level may lead to a serious accident according to the circumstances.

Always follow the precautions of both levels because they are important to personal safety.

Please save this manual to make it accessible when required and always forward it to the end user.

DESIGN PRECAUTIONS

CAUTION

- Do not bunch the control wires or communication cables with the main circuit or power wires, or lay them close to each other. As a guide, separate the lines by a distance of at least 100mm (3.94 inches) otherwise malfunctions may occur due to noise.

INSTALLATION PRECAUTIONS

DANGER

- Be sure to shut off all phases of the external power supply used by the system before mounting or removing this unit to/from the GOT. Not doing so can cause a unit failure or malfunction.
- Before connecting the Bus connection cable to this unit, always shut off GOT power and PLC CPU power externally in all phases. Not doing so can cause a malfunction.

CAUTION

- Use this unit in the environment that satisfies the general specifications described in the User's Manual for the GOT used. Not doing so can cause an electric shock, fire, malfunction or product damage or deterioration.
- When installing this unit to the GOT, fit it to the connection interface of the GOT and tighten the mounting screws in the specified torque range. Undertightening can cause a drop, failure or malfunction. Overtightening can cause a drop, failure or malfunction due to screw or unit damage.

WIRING PRECAUTIONS

DANGER

- Be sure to shut off all phases of the external power supply used by the system before wiring. Failure to do so may result in an electric shock, product damage or malfunctions.

CAUTION

- Exercise care to avoid foreign matter such as chips and wire offcuts entering the unit. Not doing so can cause a fire, failure or malfunction.

STARTUP AND MAINTENANCE PRECAUTIONS

DANGER

- Before starting cleaning, always shut off GOT power externally in all phases. Not doing so can cause a unit failure or malfunction. Undertightening can cause the GOT to drop, short circuit or malfunction. Overtightening can cause a short circuit or malfunction due to the damage of the screws or unit.
- Do not disassemble or modify any unit. This will cause failure, malfunction, injuries, or fire.
- Do not touch the conductive areas and electronic parts of this unit directly. Doing so can cause a unit malfunction or failure.

CAUTION

- Always secure the cables connected to the unit, e.g. run them in conduits or clamp them. Not doing so can cause unit or cable damage due to dangling, moved or accidentally pulled cables or can cause a malfunction due to a cable contact fault.
- Do not hold the cable part when unplugging any cable connected to the unit. Doing so can cause unit or cable damage or a malfunction due to a cable contact fault.
- Do not drop the module or subject it to string shock. A module damage may result.
- Always make sure to touch the grounded metal to discharge the electricity charged in the body, etc., before touching the unit. Failure to do so may cause a failure or malfunctions of the unit.

DISPOSAL PRECAUTIONS

CAUTION

- Dispose of this product as industrial waste.

TRANSPORTATION PRECAUTIONS

CAUTION

- Make sure to transport the GOT main unit and/or relevant unit(s) in the manner they will not be exposed to the impact exceeding the impact resistance described in the general specifications of the User's Manual for the GOT used, as they are precision devices. Failure to do so may cause the unit to fail. Check if the unit operates correctly after transportation.

Manuals

The following shows manuals relevant to this product.

Detailed Manual

Manual name	Manual number (Model code)
GT16 User's Manual (Hardware) (Sold separately)	SH-080928ENG (1D7MD3)
GT15 User's Manual (Sold separately)	SH-080528ENG (1D7M23)
GOT1000 Series Connection Manual (Microcomputer, MODBUS Products, Peripherals) for GT Works3 (Sold separately)	SH-080871ENG (1D7MC5)

Relevant Manuals

For relevant manuals, refer to the PDF manuals stored in the CD-ROM for the drawing software used.

Compliance with the EMC and Low Voltage Directives

To configure a system meeting the requirements of the EMC and Low Voltage Directives when incorporating the Mitsubishi GOT (EMC and Low Voltage Directives compliant) into other machinery or equipment, refer to "EMC AND LOW VOLTAGE DIRECTIVES" of the General Description included with the GOT used. The CE mark, indicating compliance with the EMC and Low Voltage Directives, is printed on the rating plate of the GOT.

Compliance with the Radio Waves Act (South Korea)

This product complies with the Radio Waves Act (South Korea). Note the following when using the product in South Korea.

이 기기는 업무용 (A급) 전자파적합기기로서 판매자 또는 사용자는 이 점을 주의하시기 바라며, 가정외의 지역에서 사용하는 것을 목적으로 합니다. (The product is for business use (Class A) and meets the electromagnetic compatibility requirements. The seller and the user must note the above point, and use the product in a place except for home.)

Packing List

After unpacking the box, check that the following products are included.

Model name	Product name	Quantity
GT15-SOUT	Sound output unit	1
-	Mounting screw set (2 pieces of screw, 2 pieces of label)	1
-	Cable clamp set	1

1. OVERVIEW

This User's Manual describes the GT15 sound output unit (hereinafter referred to as the sound output unit). With installing the sound output unit, the GOT can be connected to a speaker with amplifier (hereinafter referred to as external speaker). When using the sound output unit, set the Communication Settings. For the setting, refer to the User's Manual for the GOT used.

2. SPECIFICATIONS

The performance specifications of the sound output unit are indicated below. The general specifications of the sound output unit are the same as those of the GOT. Refer to the User's Manual for the GOT used for the general specifications of the printer unit.

Item	Specification
Sound output terminal	For connecting external L/R speakers, 1 channel for each speaker (2Vp-p, 0.4mW (for rated load 10kΩ))
Applicable jack	φ 3.5 stereo mini jack, straight type
Playable file	Windows WAV format 8.000KHz, 16 bits, mono (8 seconds/sound file)
Internal consumed current (DC5V)	0.08A
Weight	0.07kg (0.154lb) (Including cable clamp)

3. PART NAMES AND EXTERNAL DIMENSIONS

* The above figures show the external dimensions after installing the cable clamp.

Dimensions of X when mounted to the GOT

GOT	GT16	GT15
15"	19.5 (0.77)	21 (0.83)
12.1"	18 (0.71)	18 (0.71)
10.4"	21 (0.83)	21 (0.83)
8.4"	23 (0.92)	23 (0.92)
5.7"	23 (0.92)	23 (0.92)

Unit: mm (inch)

No.	Name	Description
1)	Mounting screw	Mounting screws fixed with the front communication unit or GOT
2)	Interface connector	Extension connector installed to a front extension unit or the GOT
3)	Extension connector	Extension connector to which a back extension unit is installed
4)	Cable clamp	For cable treatment
5)	Sound output terminal	Terminal for connecting a cable of external speakers
6)	Rating plate	-

4. INSTALLATION PROCEDURE

4.1 Cable Connection

- Connect a cable of an external speaker to the sound output unit.

- Attach the cable clamp to the unit. Be sure to attach the cable clamp to section A (see the following figure) with its band positioned outside and press it until it clicks. For the band inserting direction, refer to the arrow. (In the case a cable clamp is attached)
- Put the cable of the external speaker through the looped cable clamp band, and pull the band for fixing the cable.

4.2 Unit Installation

The installation procedure for the sound output unit is explained using the GT1575.

- Power off the GOT.
- Remove the one extension unit covers of the GOT.

- Fit the sound output unit in the GOT case.

- Tighten the mounting screws of the sound output unit with a tightening torque of 0.36 to 0.48N·m (two places).

- When mounting any communication unit on the outer stage, refer to the User's Manual for the GOT used. When not mounting any communication unit on the outer layer, stick accessory labels on the top of mounting screws (2 places) to cover the top of them in order to avoid receiving electrostatic. Keep the connector cover and label (see the following figure) fixed.

Point

Precautions for connecting external speaker

- Do not connect or disconnect the cable of the external speaker during sound outputs.
- Do not connect any devices other than external speakers to the sound output unit.

Removing sound output unit

When removing the sound output unit, tilt Δ PULL of the unit and remove the unit so as not to break the connector.

Cable clamp

- Pulling out the cable clamp band
The cable clamp band can be pulled out after cable treatment. Pull out the band with pressing the tab of the cable clamp outward using a driver etc.

(2) Removing from sound output unit

The cable of the external speaker can be removed even though the cable is fixed with the cable clamp. Remove the cable clamp by pressing it in both directions (arrow A).

Warranty

Mitsubishi will not be held liable for damage caused by factors found not to be the cause of Mitsubishi; machine damage or lost profits caused by faults in the Mitsubishi products; damage, secondary damage, accident compensation caused by special factors unpredictable by Mitsubishi; damages to products other than Mitsubishi products; and to other duties.

For safe use

- This product has been manufactured as a general-purpose part for general industries, and has not been designed or manufactured to be incorporated in a device or system used in purposes related to human life.
- Before using the product for special purposes such as nuclear power, electric power, aerospace, medicine or passenger movement vehicles, consult with Mitsubishi.
- This product has been manufactured under strict quality control. However, when installing the product where major accidents or losses could occur if the product fails, install appropriate backup or failsafe functions in the system.
