Installation

Install GT Works3 to the personal computer.

■Check before installation

- Log on to the personal computer as a user having the "Administrator" (computer administration) privilege.
- Close all the softwares running under Microsoft® Windows® Operating System before installation. If the product is installed while other softwares are running, it may not operate normally.

■Batch installation

Install multiple software in a batch.

```
┌────────────────────────────┐
│      Start installation     │
└────────────────────────────┘
              ↓
Insert the installation DVD-ROM to the DVD-ROM drive.
GT Works3 installation starts automatically.
If it does not start automatically, double-click the "setup.exe" icon
on the DVD-ROM (Disk 1 folder).
              ↓
Enter "Name", "Company", and "Product ID". *1
              ↓
Select the software to be installed.
              ↓
Specify the installation destination.
              ↓
Install programs by following the on-screen instructions.
              ↓
Select the software to be displayed on the desktop as shortcuts.
              ↓
┌────────────────────────────┐
│      End of installation    │
└────────────────────────────┘
```

*1 : Product ID is written on the "License certificate" included with the product. Enter the 12-digit number divided into 3 and 9 digits.

■Individual installation

Each software can be used individually by installing only the required software.

Double-click the "setup.exe" icon in each folder to install the software. For the software where the setup.exe is not included, copy the entire folder and then run it.
